

Motorized PCB Depanelizer

Multi-blade PCB Separator, CWVC-1SN Features:

1. 9 pairs of blades is available
2. Configuration of the blades is adjusted to individual PC
3. Sensors are used to monitor the separating process
4. The PCBs are placed either by hand or they feed auto by a loading station.
5. Easy operating
6. Could be adjusted according to PCB sizes and custom requirements
7. Could be customized made as customers' request

Multi-blade PCB Separator, CWVC-1SN Specification:

Cutting speed	100-220 mm/s
Cutting length	100 mm -unlimited
Cutting thickness	0.8-3.5mm
Cutting width	8-225 mm
Number of blades	max 9 pairs
Voltage	110/220V
Pcb depaneling machine size	1155 x 405x330mm
Pcb depaneling machine weight	70 KG
Length of platform	1150 mm (customized)
