

Pneumatic PCB Depanelizer

PCB Depaneling Machine, CWVC-480 Features:

- 1) Electromagnetic valve control, touchscreen operation.
- 2) Short route and safe operation.
- 3) Can be used for all kinds of PCB with different thickness.
- 4) The internal stress should be less than 200 to avoid cracking.
- 5) The distance between upper and lower blade can be adjusted precisely.

PCB Depaneling Machine, CWVC-480 Specification:

| | |
|--------------------|-----------------------------|
| Max Cutting Length | 480mm |
| PCB Thickness | 0.6-3.5mm |
| PCB Material | FR1, FR4, CEM1, CEM3, MCPCB |
| Cutting Stress | Less than 500 |
| Machine Weight | 280kgs |
| Machine Dimension | 96*43*36mm |
